

BLUE LAGOON
CRUISES

CLEANING & HYGIENE

GUEST SAFETY

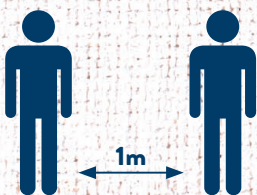

- Use of top of the line cleaning products by ECOLAB will ensure areas are cleaned and disinfected regularly
- Hand sanitiser stations have been placed throughout the vessel for ease of access and frequency of use
- All in-cabin surfaces and items such as room keys and coffee machines are thoroughly washed and sanitised daily
- Snorkelling gear will be thoroughly cleaned/sanitised and allocated to guests on arrival for the duration of their cruise. Guests also have the option of purchasing their own snorkel mouthpiece onboard
- All guests will have their temperature screened prior to boarding

CREW WELL-BEING

- All crew receive mandatory training on new safety and sanitation standards
- Crew are required to wash hands/sanitise after any activity or when moving between areas on the vessel
- Crew will have temperature screening before boarding and will not be allowed to work if they are feeling unwell in any way

PHYSICAL DISTANCING

- Seating reconfiguration in the dining and shared seating areas in order to provide increased physical distancing between guests
- Physical distancing signage and health guidelines are posted throughout the vessel and check in areas
- Isolation capabilities and procedures are in place in the event of a guest becoming ill. Given our close proximity to Port Denarau at all times any guests or crew who take ill can easily be disembarked and returned to port within a matter of hours
- Breakfast will now be on an à la carte basis and all other meals are no longer self serve

INCREASED CLEANING

- The entire vessel will undergo a thorough sanitisation process prior to boarding
- Each cabin has its own cleaning and sanitising set to ensure there is no cross contamination
- All cabins will be thoroughly cleaned and sanitised between guests and will have all high touch areas cleaned and sanitised daily
- Increased frequency of scheduled cleaning and sanitising of high touch areas around the vessel
